Dear Prospective Offeror:

RE: Waako Stewardship – Original advertisement was pulled and new advertisement now posted.

The original advertisement for Waako Stewardship was pulled and turned into a pre-advertisement because it was discovered that the wrong total acres were used for the cruise, appraisal, and contract preparation. In order to correct this, the contract package was re-worked, and then re-advertised on August 21.

The difference between the original advertisement and the current advertisement is a difference of about 100 acres and a slight change in the advertised rate. When submitting a proposal for Waako Stewardship, it is important that the correct Bid Form is used which is available on our website (not the old one with the incorrect advertised rate). We completely removed the original advertisement and our website now contains only the current correct version of Waako Stewardship. Additionally, the date that proposals are due for Waako Stewardship is now September 19, 2014.

Please feel free to call with me with any questions at 541-891-1202.

Sorry for any inconvenience.

Sincerely,

/s/ Judd Lehman
